**STUDY VISIT IN SERBIA (BOR)**

**Project: 2007CB16IPO006-2011-2-251**

Study visit in Serbia (Bor) took place from 16<sup>th</sup> of December until 19<sup>th</sup> of December 2013. The representatives of the Bulgarian delegation stayed in hotel “Albo” - Bor. Representatives of total 11 companies and 3 non-commercial organizations took part at the study visits.

During the visits, totally 6 companies were visited in Bor District:

1. “GAMP doo - Bor – trade and car repair company
2. “Sevone DOO” – furniture manufacturer
3. ”Albo DOO” – polyvinyl construction window and doors manufacturer
4. “Total Design DOO” – innovations related to renewable energy products
5. “A-plast DOO” – manufacturer of plastic parts
6. “CZR Strug plus” – workshop for production of metal and wood elements

The Bulgarian delegation established good contacts with partners from Serbia. Very interesting were the innovative machines of the company Total Design. The small machines for renewable energy products attracted the representatives of Bulgarian companies and may lead to trade cooperation in the future – for the needs of the small Bulgarian agriculture producers. The bicycles offered by GAMP doo were attractive for the Bulgarian delegation since these models can not be found in Bulgaria. The facilities and the machines of Sevone DOO were interesting for investments because there are non such large size factories in the cross-border region. The representatives of the Bulgarian delegation and the representatives of the visited companies exchanged their contact details and will keep in contact to cooperate in the future.
